**Thickness:** as of 7 mm

#### Book mark (page-marking ribbon):

**Width:** approx. 4 - 10 mm  
**Max. cutting length:** 460 mm

Subject to technical alteration.

# The World of Bookbinding.

## **PräziRibbon**

The **PräziRibbon** is designed to quickly and easily attach page-marking ribbon (book mark) to the book block.

The glue applicator applies a drop of glue on to the book block. The book mark is folded and pressed

on to the book by means of a roller.

Now the book mark is cut off neatly at the other end of the book block at the preset length, and the book block is removed.

### Recommended consumables

- Adhesive **PräTack E40** (item no. 362008XX)

- Book mark (item no. 5082-XXX)

### Option:

- Hot-cut device to neatly cut the book mark to

avoid future fraying. The cutting angle may be set to 45° or 90°.

### Applications:

hardcover books

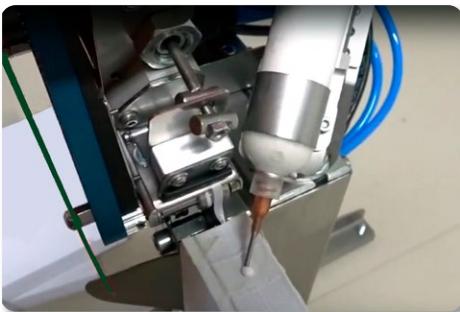

notebooks

diaries

organizers
